# CLASSIC IVORY TRAVERTINE

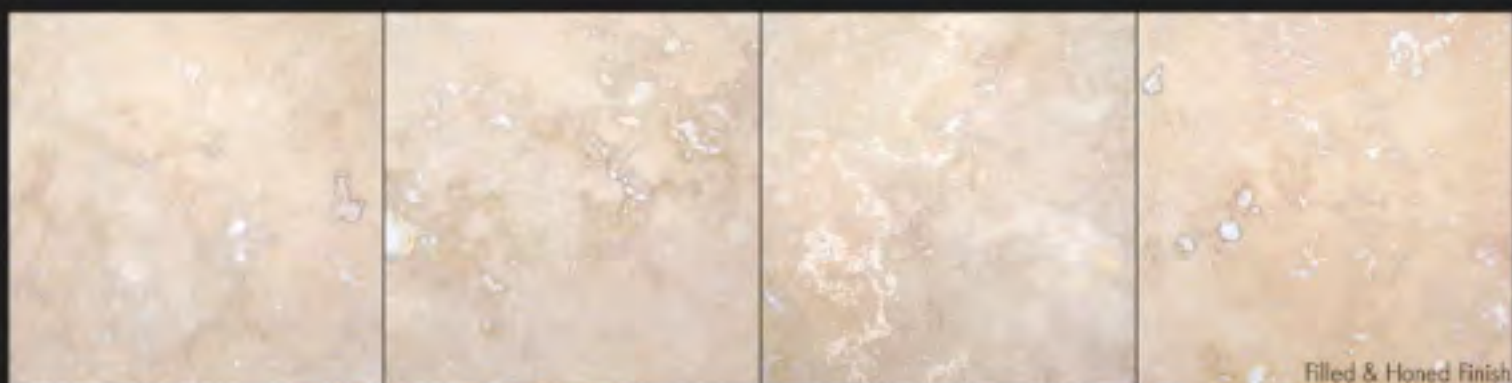

Filled & Honed Finish

Available Sizes:

# CLASSIC BEIGE TRAVERTINE

Filled & Honed Finish

Available Sizes:

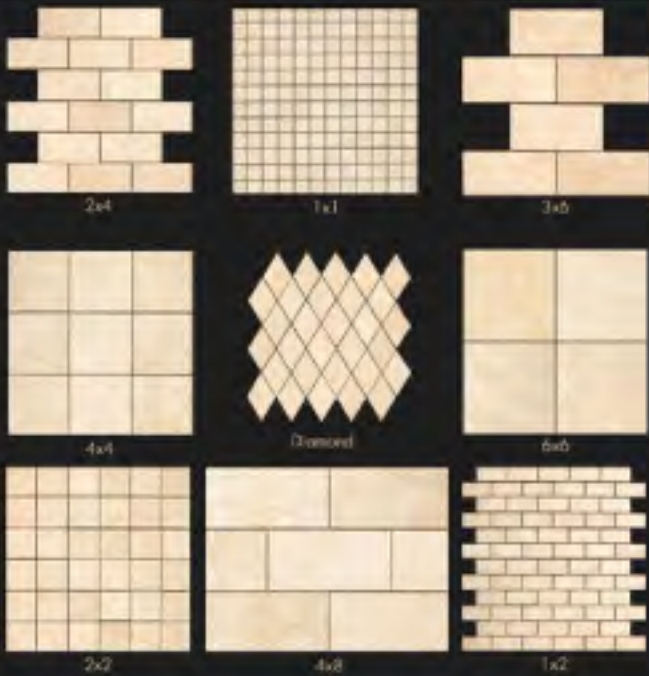

Both Ivory Travertine and Beige Travertine colours are graded into two groups, first grade and Classic grade. In this grading process, the main decision factor is the amount of fills on the tile. In general, tiles with fills that are greater than a quarter will be classified as classic while the rest are grouped into first grade. This is a subjective process and may differ slightly from one shipment to another. Four tiles are pictured above for each colour to depict a general idea of what to expect from our Classic grades.
